

GOT AN IDEA FOR A STARTUP? ENTREPRENEURIAL DREAMS? NEED HELP GETTING YOUR STARTUP...STARTED?

WHAT YOU NEED IS A

Starting a startup is easy to talk about — but never easy to put into action. You need a plan. You need a market. You need to understand that market. And to be sustainable, you need to make a profit.

Kick is the “impact business” incubator that aims to help entrepreneurs through the difficult path from idea to started startup. The 6-week Kick program has been designed to guide impact, lifestyle, and social entrepreneurs onto a path to sustainable revenues, whether it is for a profit, nonprofit, or hybrid model.

Under the directorship of Peter Elkins (peterelkins.ca), an accomplished advisor and entrepreneur with start-up, growth, and enterprise acumen, Kick Victoria aims to accelerate each participant’s business or organization.

Whether you need help getting your product or service to market, or a plan to generate a profit, Kick can put you on the path to startup success.

It’s more than education for entrepreneurs — it’s the customized, expert-driven “Kick” you need to start your startup.
